## What is Upward Bound Math & Science?

Upward Bound Math & Science (UBMS) helps students from low-income families to strengthen math and science skills. In addition, students learn computer technology as well as English, foreign language and study skills. Currently, 117 projects are serving students throughout the country. Overall, 86.5% of students who participated in Upward Bound Math/Science programs go directly to college after graduating from high school. Indeed, 70% of Upward Bound Math/Science programs have postsecondary enrollments of 80% or higher.

## Is there an Upward Bound Math & Science program at my school?

There is only one Upward Bound Math Science Program in the state of West Virginia. The program is hosted on the campus of West Virginia State University in Institute, WV. If you are interested in more information about this program, contact the West Virginia State University Upward Bound Math & Science office at 304-766-3086.
